November 24, 2026

Nevada Medicaid Web Announcement 4069

Attention Personal Care Services (PCS) and Structured Family Caregiving (SFCG) Providers:

Procedure Codes T2031 and T1019 Cannot Be Billed Together

Attention provider types (PT) 30 (Personal Care Services – Provider Agency), 83 (Personal Care Services – Intermediary Service Organization), and 95 (Structured Family Caregiving):

Effective for claims with dates of service on or after November 23, 2026, procedure code T2031 (Assist Living Waiver) billed by PT 95 and procedure code T1019 (Personal Care Services per 15 min) billed by PTs 30 and 83 cannot be billed on the same date of service for the same member. If both these services are billed on the same day, it is considered a duplication of services.

Claims submitted for both services for the same member and date of service will result in denial of the second claim processed, regardless of which provider submitted the claim first. The denied claim will receive error code 6154 (SFCG and PCS not allowed on the same day).

The above restriction also applies to prior authorizations (PA). A member may not have overlapping authorization for SFCG and PCS covering the same dates of service. If one service has already been authorized, a PA request for the other service for the same dates will be denied.

No claims will be reprocessed automatically as this is a go-forward change.
