4. Click Provider Login (EVS). The EVS Home page opens.
1.3. Registering in EVS

Registering for EVS access is required to use secured features, and is a separate registration process from enrolling as a Medicaid provider. The Nevada Medicaid and Nevada Check Up Health Care Portal uses an independent website registration process that will enable you to create and customize your profile and assign delegates to work on your behalf. The portal relies on the Nevada Medicaid Management Information System (MMIS) to validate whether you, as the provider, are permitted access. Only one provider office registration is required with the ability to assign multiple delegates to perform clinical administration.

Providers, please note: If you choose to have an office administrator register on your behalf, the administrator must use your name or facility’s name when registering in EVS. The administrator must then add their information as a delegate and then register as a delegate in order to utilize the secure features in EVS.

The website uses data from your profile to determine the level of access available based on your role. There are four roles that define levels for access:

- Provider
- Delegate
- Trading Partner
- Managed Care Organization
Some user role examples:
