

ICD-9-CM Emergency Diagnosis Codes for Non-U.S. Citizens with Emergency Medical Only Coverage

The following is a list of ICD-9-CM diagnoses codes for which emergency medical services are covered by Nevada Medicaid for non-U.S. citizens with emergency medical only coverage. This includes the provision of outpatient emergency dialysis through the Federal Emergency Services Program (FESP).

Disclaimer: Medical services for treatment of the diagnosis codes on this list are not reimbursed for non-U.S. citizens with emergency medical only coverage when associated with non-emergent medical services or once the emergency medical condition is stabilized.
