

Behavioral Health Outpatient Treatment

State policy

The [Medicaid Services Manual \(MSM\)](#) is on the Nevada Medicaid website at nevadamedicaid.nv.gov/resources/medicaid-services-manual/.

- [MSM Chapter 400](#) covers policy for behavioral health providers.
- [MSM Chapter 100](#) contains important information applicable to all provider types.

Rates

Reimbursement rates are listed online on the [Rates](#) webpage. Rates are also available on the Provider Web Portal at medicaid.nv.gov through the Search Fee Schedule function, which can be accessed on the [Provider Login](#) webpage under Resources (you do not need to log in).

Smoking/Tobacco Cessation Counseling

Effective on claims with dates of service on or after December 1, 2021, Current Procedural Terminology (CPT) codes 99406 (Smoking and tobacco use cessation counseling visit, intermediate, 3-10 minutes) and 99407 (Smoking and tobacco use cessation counseling visit, intensive, greater than 10 minutes) may be used to bill smoking cessation counseling for all Nevada Medicaid recipients. Procedure codes 99406 and 99407 are no longer restricted to counseling for pregnant women only. The limitation for both codes is a maximum of 24 encounters per year. These limitations can be exceeded if determined medically necessary by Nevada Medicaid.

Authorization Requirements

Authorization is required for most behavioral health services, including those referred through the Early Periodic Screening, Diagnostic and Treatment (EPSDT) program. Use the Authorization Criteria search function in the Provider Web Portal at medicaid.nv.gov to verify which services require authorization. Authorization Criteria can be accessed on the [Provider Login](#) webpage under Resources (you do not need to log in).

For questions regarding authorization, call the Gainwell Technologies Prior Authorization Department at (800) 525-2395 or refer to MSM Chapter 400. Prior authorization may be requested through the Provider Web Portal, medicaid.nv.gov, by using the appropriate FA form listed below:

- Form FA-10A: Psychological testing
- Form FA-10B: Neuropsychological testing
- Form FA-10D: Automated Testing
- Form FA-11: Behavioral Health Outpatient or Rehabilitative Authorization Request
- Form FA-11B: Mental Health Request for PHP/IOP Services (Partial Hospitalization Program and Intensive Outpatient Program)

Incomplete requests may receive either a technical denial or may be pended for additional information, determined by what elements are missing. If the request is pended for additional information, the submitter has five business days to resubmit with complete information or a technical denial will be issued.

Please note that form FA-11 requires the signature of the Licensed Professional, Qualified Mental Health Professional (QMHP), Peer Support Specialist Supervisor, or Peer Clinical Supervisor. Requests will be denied if the required signatures are not included.

Authorization does not guarantee payment of a claim. Payment is contingent upon eligibility, available benefits, contractual terms, limitations, exclusions, coordination of benefits and other terms and conditions set forth by the benefit

Behavioral Health Outpatient Treatment

program.

Request timelines

- **Initial request for Outpatient Mental Health (OMH) and Rehabilitative Mental Health (RMH) services:** Submit no more than 15 *business days before* and no more than 15 *calendar days after* the start date of service, unless otherwise specified for a service in the Billing Guide or in the Billing Manual.
- **Continued service requests:** If the recipient requires additional services or dates of service (DOS) beyond the last authorized date, you may request review for continued service(s) prior to the last authorized date. The request must be received by Nevada Medicaid by the last authorized date of service and it is *recommended these be submitted 5 to 15 business days prior to the last authorized date*.
- **Unscheduled revisions:** Submit whenever a significant change in the recipient's condition warrants a change to previously authorized services. Must be submitted during an existing authorization period and prior to revised units/services being rendered. The number of requested units should be appropriate for the remaining time in the existing authorization period.
- **Retrospective request (for recipient retroactive eligibility):** Submit no later than 90 calendar days from the recipient's Date of Decision (i.e., the date the recipient was determined eligible for Medicaid benefits). All authorization requirements apply to requests that are submitted retrospectively.
- **Emergency request for Crisis Intervention only:** Submit within five (5) business days of the delivery of additional services, including the first date of service of the first occurrence.

Outpatient Psychotherapy Requirements

In accordance with MSM 403.4 C. - Mental Health Therapies, service limitations for mental health therapies are a maximum of 18 sessions for adults and 26 sessions for children annually before prior authorization is required. These session limits are based on the calendar year, beginning January 1.

These limits are a **combined** total of all sessions used for the following procedure codes:

- 90832, 90833, 90834, 90836, 90837, 90838, 90839, 90845, 90846, 90847, 90849, 90853, 90875, 90876, and H0004.

Providers are encouraged to access the Provider Web Portal (PWP) and utilize the Treatment History Tool to confirm all psychotherapy services utilized by an individual in a given calendar year. Please reference the [PWP User Manual Chapter 9: Treatment History](#) for detailed instructions.

Prior authorizations for psychotherapy services may be approved for up to 90-day increments.

Claim instructions

Use Direct Data Entry (DDE) or the 837P electronic transaction to submit claims to Nevada Medicaid. See [PWP Chapter 3: Claims](#) and the [EDI companion guides](#) for billing instructions.

Billing Instructions for Span Dating of Outpatient Mental Health (OMH) and Rehabilitative Mental Health (RMH) Services

For OMH and RMH services, **non-consecutive dates and services that are not the same unit/time amount** must not be span dated on a single claim line. Providers risk claim denials due to duplicate logic, overlapping dates and/or mutually exclusive edits.

Behavioral Health Outpatient Treatment

When span dating, services must have been provided on every day within that span of dates and be for the same quantity of units on each day. In the following examples, it would be incorrect to submit a single span-dated claim line for the following services:

- The entire week or month when services were only performed on Thursday and Saturday within the same week; or
- The entire month was billed and services were only rendered on January 1 and January 10 (two days within the same month; see the example below); or
- If one hour, four units, were performed on January 1 and two hours, eight units were performed on January 2.

The claim should only contain dates of service the service was rendered on. If services were rendered January 1, January 5 and January 10, the claim would be submitted as follows with one line charge for each date of service:

01/01/15
01/05/15
01/10/15

When billing weekly or monthly, a single claim line cannot include dates from two calendar months. For example:

- A claim line with dates of service April 15–May 15 is not allowed, but a claim line with May 1–May 31 is acceptable, if services were provided on every day in the date span and the above criteria are met regarding same quantity of units provided on each day.
- A claim line with dates of service March 28–April 3 is not allowed, but one claim line with March 28–March 31 and a second claim line with April 1–April 3 is acceptable, if services were provided on every day in the date span and the above criteria are met regarding same quantity of units provided on each day.

Services billed must match services authorized. For example, if code H0038 with modifier HQ was authorized, this same code/modifier combination must be entered on the claim.

National Correct Coding Initiative (NCCI) Edits and Service Limitations

The objective of the National Correct Coding Initiative (NCCI) is to promote correct coding methodologies. The Centers for Medicare & Medicaid Services (CMS) is responsible for the development and administration of the NCCI Edits: *“The CMS developed its coding policies based on coding conventions defined in the American Medical Association’s CPT Manual, national and local policies and edits, coding guidelines developed by national societies, analysis of standard medical and surgical practices, and a review of current coding practices.”*

Nevada’s Medicaid Management Information System (MMIS) uses NCCI Edits in the processing of Nevada Medicaid claims. Nevada Medicaid receives quarterly and annual NCCI Edit updates that are added to the MMIS. Providers can find the most current Annual Code report and the quarterly Medically Unlikely Edits (MUE), Procedure to Procedure (PTP) and Add-On Code reports on the following website: <https://www.cms.gov/medicare/coding-billing/ncci-medicaid>

It is not possible to provide the most current quarterly or annual changes in this billing guide; for the most current information please reference the website link provided above.

Providers are reminded to bill procedures with the correct modifier combinations, units of service provided and correct code combinations.

Behavioral Health Outpatient Treatment

Note: It is the responsibility of providers to ensure the use of current CPT codes, service limitations and MUEs are applied when billing claims.

Intensity of Needs Grid

The Intensity of Needs grid is an approved Level of Care (LOC) utilization system, which bases the intensity of services on the assessed needs of a recipient. The determination level on the grid guides the interdisciplinary team in planning treatment to improve or retain a recipient's level of functioning or prevent relapse. Each Medicaid recipient must have an Intensity of Needs determination completed prior to approval to transition to more intensive services (except in the case of a physician or psychologist practicing as an independent provider). The Intensity of Needs grid is found in [Medicaid Services Manual Chapter 400](#), Section 403.5 Outpatient Mental Health (OMH) Services – Utilization Management. The service limitations for RMH services are found under the individual RMH service descriptions.

NOTE: Assessment, as listed in the Intensity of Needs grid, refers to H0031 (Mental Health Assessment by non-physician) 90791 (Psychiatric Diagnostic Evaluation), and 90792 (Psychiatric Diagnostic Evaluation with Medical Services), also referred to as a full assessment. These limits do not apply to H0002 (Behavioral Health Screening to determine eligibility for admission to treatment program), also referred to as a Mental Health Screen. When H0031, 90791, or 90792 are performed, H0002 may not be billed separately.

Behavioral Health Outpatient Treatment

Covered services

The following table lists covered codes, code descriptions and billing information as needed. The requirements for coverage and limitations are governed by MSM Chapter 400. If you need further clarification, please contact the Medicaid QIO-like vendor.

Qualified Provider Types as noted in the following table:

14/300: Qualified Mental Health Professional (QMHP)
 14/301: Qualified Mental Health Associate (QMHA)
 14/302: Qualified Behavioral Aide (QBA)
 14/305: Licensed Clinical Social Worker (LCSW)
 14/306: Licensed Marriage and Family Therapist (LMFT)
 14/307: Licensed Clinical Professional Counselor (LCPC)
 20: Physician
 24: Advanced Practice Registered Nurse (APRN)
 26: Psychologist
 77: Physician's Assistant (PA)
 97: Peer Support Specialist

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
Screening and Assessment						
96127	Brief emotional/behavioral assessment (e.g., Depression Inventory, ADHD) with scoring and documentation per standardized instrument.	Assessment = 1 unit; limit 2 units per day	LCSW, LMFT, LCPC, QMHP, QMHA	This is considered a screening tool. Bill one unit for each screening. NOTE: A screening may also be a component of a full assessment, but only the full assessment (including a CALOCUS-CASII or LOCUS) will be reimbursable.	No	All Levels

Behavioral Health Outpatient Treatment

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
H0002	Behavioral Health Screening to determine eligibility for admission to treatment program	Screening = 1 unit; limit 1 unit per 90 days	LCSW, LMFT, LCPC, QMHP, QMHA	Bill one unit for each screening. Recipients must be re-screened every 90 days to reevaluate their Intensity of Needs, which includes a CALOCUS-CASII or LOCUS. This screening must be conducted face-to-face before the recipient can be determined eligible for Medicaid behavioral health services NOTE: A screening may also be a component of a full assessment, but only the full assessment (including a CALOCUS-CASII or LOCUS) will be reimbursable.	Requires prior authorization to exceed service limits	All Levels
H0031	Mental Health Assessment by non-physician	4 units for children or 2 units for adults per calendar year	LCSW, LMFT, LCPC, QMHP	Use this code for services provided in a home or community setting, not in an office setting. Psychotherapy services, including for crisis, may not be reported on the same day. E/M codes may not be reported on the same day performed by the same individual for the same patient.	Requires prior authorization to exceed service limits	All Levels

Behavioral Health Outpatient Treatment

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
90791	Psychiatric Diagnostic Evaluation	4 units for children or 2 units for adults per calendar year	LCSW, LMFT, LCPC, QMHP	Integrated biopsychosocial assessment, including history, mental status and recommendations. Psychotherapy services, including for crisis, may not be reported on the same day. E/M codes may not be reported on the same day performed by the same individual for the same patient.	Requires prior authorization to exceed service limits	All Levels
90792	Psychiatric Diagnostic Evaluation with medical services	N/A	Physician or other qualified health care professional	Psychotherapy services, including for crisis, may not be reported on the same day. E/M codes may not be reported on the same day performed by the same individual for the same patient.	No	All Levels
Diagnostic						
96138	Psychological or Neuropsychological Test administration and scoring by technician	First 30 minutes	LCSW, LMFT, LCPC, QMHP	Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method.	Yes	All Levels

Behavioral Health Outpatient Treatment

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
96139	Psychological or Neuropsychological Test administration and scoring by technician	Each additional 30 minutes	LCSW, LMFT, LCPC, QMHP	Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method.	Yes	All Levels
96146	Psychological and Neuropsychological test, automated	N/A	LCSW, LMFT, LCPC, QMHP	Psychological or neuropsychological test administration, with single automated, standardized instrument via electronic platform, with automated result only.	Yes	All Levels
96112	Developmental Test administration	First hour	LCSW, LMFT, LCPC, QMHP	Developmental test administration by qualified health care professional with administration, scoring, and interpretation of standardized assessments.	No	All Levels
96156	Health and Behavior Assessment or reassessment	4 units per calendar year Initial assessment, face-to-face with patient	LCSW, LMFT, LCPC, QMHP	Health behavior assessment, or re-assessment (i.e., health-focused clinical interview, observations, clinical decision-making). Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status.	Requires prior authorization to exceed service limits	All Levels

Behavioral Health Outpatient Treatment

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
96158	Health and Behavior Intervention	Individual, face-to-face, Initial 30 minutes	LCSW, LMFT, LCPC, QMHP	Includes promotion of functional improvement, minimizing psychological and/or psychosocial barriers to recovery, and management of and improved coping with medical conditions. These services emphasize active patient/family engagement and involvement. Do not report for less than 16 minutes of service.	No	All Levels
96159	Health and Behavior Intervention	Each additional 15 minutes	LCSW, LMFT, LCPC, QMHP	Includes promotion of functional improvement, minimizing psychological and/or psychosocial barriers to recovery, and management of and improved coping with medical conditions. These services emphasize active patient/family engagement and involvement.	No	All Levels
96164	Health and Behavior Intervention, group (2 or more patients)	Initial 30 minutes, face-to-face	LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status. Do not report for less than 16 minutes of service.	No	All Levels
96165	Health and Behavior Intervention, group (2 or more patients)	Each additional 15 minutes, face to face	LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status.	No	All Levels

Behavioral Health Outpatient Treatment

Billing Code	Brief Description	Service Limitations	Qualified Provider Type(s)	Additional Instruction / Restriction	Prior Authorization Requirement	Intensity of Need
96167	Health and Behavior Intervention, family (with patient present)	Initial 30 minutes, face-to-face	LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status. Do not report for less than 16 minutes of service.	No	All Levels
96168	Health and Behavior Intervention, family (with patient present)	Each additional 15 minutes, face-to-face	LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status.	No	All Levels
96170	Health and Behavior Intervention, family (without the patient present)	Initial 30 minutes, face-to-face	Psychologist, LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status. Do not report for less than 16 minutes of service.	No	All Levels
96171	Health and Behavior Intervention, family (without the patient present)	Each additional 15 minutes, face-to-face	Psychologist, LCSW, LMFT, LCPC, QMHP	Qualifying recipients present with primary physical illnesses, diagnoses or symptoms and may benefit from interventions that focus on biopsychosocial factors related to the recipient's health status.	No	All Levels
