School Health Services (SHS)

Program Overview

The Nevada Medicaid School Health Services (SHS) program allows enrolled Local Education Agencies (LEAs)/State Education Agencies (SEAs) to receive Medicaid payment for providing qualifying health-related services.

Student Requirements

In order to receive services, a student must be enrolled in Nevada Medicaid and be at least three years old, but under age 21.

State Policy

For complete coverage and limitations, refer to Medicaid Services Manual (MSM) Chapter 2800 on the Division of Health Care Financing and Policy (DHCFP) website at http://dhcfp.nv.gov

Service Requirements

All required evaluations and records must be complete in order for Medicaid to issue payment for services. Duplicate services are not allowed when multiple providers perform the same or similar procedures.

In addition, services must be:

- Provided as part of a screening or diagnostic service, crisis service, or in accordance with an active Plan of Care (POC) that specifies the type, amount, duration, frequency, and location of services.
- Consistent with the intent of the POC's services and planned goals.
- Provided to detect, address and correct, or ameliorate the student's physical, mental and/or emotional condition as identified in the POC.
- Deemed medically necessary and appropriate.
- Meet any Ordering, Prescribing and Referring (OPR) requirements for the service being provided.
- Provided by a qualified practitioner.

Prior Authorization

SHS do not require prior authorization. See the Provider Type 60 Fee Schedule for a list of available procedure codes.

Third Party Liability (TPL)

If a recipient has another insurer (public or private) legally responsible for payment, the other insurer must be billed prior to billing Medicaid for the service provided. If the insurer denies the claim as a non-covered service or a non-covered setting, then documentation of the denial may be submitted with the claim to Medicaid.

The exception to this are services provided in an Individualized Education Program (IEP). All services provided as part of an IEP may be billed with the modifier **TM**. Medicaid pays the claim and then attempts to recover the paid amount from the legally responsible payer. This does not relinquish the LEA's/SEA's responsibility to obtain and disclose all available insurance information and obtain parental consent to bill public and private insurances.

Claim Submission Instructions

Submit claims monthly. Submit claims by using Direct Data Entry (DDE) through the Electronic Verification System (EVS) secure Provider Web Portal or by using a trading partner or billing agent. See EVS Chapter 3 Claims and the electronic billing companion guides for claim submission instructions.

School Health Services (SHS)

Use of a Billing Agent

LEAs/SEAs may use a billing agent rather than submitting claims directly to Nevada Medicaid provided that the appropriate business partner agreements are in place. The LEA/SEA is responsible for all claims submitted by its billing agent and must maintain documentation that billing was reviewed and approved prior to its submission to Nevada Medicaid.

To remain current with Nevada Medicaid rules and policies, it is recommended that providers and billing agents review both DHCFP and Nevada Medicaid provider websites for publication updates, web announcements and newsletters.

National Correct Coding Initiative (NCCI) Edits and Service Limitations

The objective of the National Correct Coding Initiative (NCCI) is to promote correct coding methodologies. The Centers for Medicare & Medicaid Services (CMS) is responsible for the development and administration of the NCCI Edits: *"The CMS developed its coding policies based on coding conventions defined in the American Medical Association's CPT Manual, national and local policies and edits, coding guidelines developed by national societies, analysis of standard medical and surgical practices, and a review of current coding practices."*

DHCFP receives quarterly and annually NCCI Edit reports from CMS. The Medicaid Management Information System (MMIS) uses the CMS NCCI Edits to process claims. The MMIS is updated regularly with changes from the reports provided by CMS. The providers can find the most current Annual Code and the quarterly Medically Unlikely Edits (MUE), Procedure to Procedure (PTP) and Add-On Code reports on the CMS website at: https://www.medicaid.gov/medicaid/program-integrity/national-correct-coding-initiative-medicaid/index.html

It is not possible to provide the most current quarterly or annual changes in this billing guide; for the most current information please reference the CMS website provided above. Providers are reminded to bill procedures with the correct modifier combinations, units of service provided and correct code combinations.

Note: It is the responsibility of providers to ensure the use of current CPT codes, service limitations and MUEs are applied when billing claims.

Incorrectly Billed Claims

If a claim is paid and Medicaid later discovers that the service was incorrectly billed, incorrectly paid, or invalid in some other way, federal law requires Medicaid to recover overpayment, regardless of the cause.

Modifiers

The following modifiers identify the type of service performed. Proper use of these modifiers is indicated in the sections that follow and in the Provider Type 60 Fee Schedule.

Modifier	Definition
25	Significant, separately identifiable evaluation and management service by the same physician or other qualified health care professional on the same day of the procedure or other service
AH	Licensed Board of Examiners Psychologist
AM	Physician, team member service
CO	Outpatient Occupational Therapy Assistant
CQ	Outpatient Physical Therapy Assistant
EP	Routine Healthy Kids Screening
GN	Outpatient Speech Language
GO	Outpatient Occupational Therapy

School Health Services (SHS)

Modifier	Definition
GP	Outpatient Physical Therapy
GT	Telephonic Services
HE	Mental health
HF	Substance abuse program
HQ	Group Service
HT	Team Service
SA	Nurse Practitioner
SL	State supplied vaccine
TD	Registered Nurse
TM	Individualized Education Program (IEP)
TS	Follow-up Service

Units

The servicing provider must document the amount of time spent for each service. For codes that specify a time segment in their description, e.g., each 15 minutes or each 30 minutes, each of these timed segments equals one unit. Enter the number of units on the claim; do not enter time spent on the service.

If more than half of a timed segment is performed, round up to the next unit. If less than half of a timed segment is performed, round down. For example, if a code is timed in 15-minute segments, partial timed segments must be at least eight minutes long in order to round the time up to the next unit.

- 22 minutes = 1 unit + 7 remaining minutes: Bill 1 unit.
- 23 minutes = 1 unit + 8 remaining minutes: Bill 2 units.

If a code does not specify a time segment in its description, it is considered an encounter or occurrence code. Bill one unit for the procedure, regardless of time spent.

Ordering, Prescribing and Referring (OPR) Provider Requirements

The Patient Protection and Affordable Care Act and the Centers for Medicare & Medicaid Services (CMS) require all OPR physicians to be enrolled in the state Medicaid program (CFR 455.410 Enrollment and Screening of Providers). The Affordable Care Act (ACA) requires physicians or other eligible practitioners to enroll in the Medicaid program to order, prescribe and refer items or services for Medicaid recipients, even when they do not submit claims to Medicaid. Physicians or other eligible professionals who are already enrolled in Medicaid as participating providers and who submit claims to Medicaid are not required to enroll separately as OPR providers.

For any services or supplies that are ordered, prescribed, or referred, the National Provider Identifier (NPI) of the Nevada Medicaid-enrolled OPR provider must be included on Nevada Medicaid/Nevada Check Up claims or those claims will be denied. To prevent claim denials for this reason, please confirm that the OPR provider is enrolled with Nevada Medicaid. This can be done on the Provider Web Portal by using the Search Providers feature: https://www.medicaid.nv.gov/hcp/provider/Resources/SearchProviders/tabid/220/Default.aspx.

For detailed information on Electronic Claims submission refer to the 837P FFS Companion Guide located at: https://www.medicaid.nv.gov/providers/edi.aspx.

For detailed information on Direct Data Entry/Provider Web Portal instructions, see the Electronic Verification System (EVS) User Manual Chapter 3 located at: https://www.medicaid.nv.gov/providers/evsusermanual.aspx.

School Health Services (SHS)

Rates

The Provider Type 60 Fee Schedule includes a list of covered codes and the current Nevada Medicaid rates. The fee schedule is online at http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/.

If you have questions regarding rates, please refer to MSM Chapter 700, Rates and Supplemental Reimbursement.

Covered Services

Medicaid covers the following services provided in a school or other community site:

- Screening and diagnostic services
- Physician services
- Mental Health and alcohol/substance abuse services
- Nursing services
- Physical therapy
- Occupational therapy
- Speech therapy
- Audiology services and supplies
- Medical supplies
- Personal Care Services (PCS)
- Applied Behavior Analysis (ABA) services
- Dental services
- Optometry services
- Case management
- Telehealth

MSM Chapter 2800 and the sections that follow provide detailed coverage information on each service.

With the exception of Durable Medical Equipment (DME) services, providers must document all face-to-face time. Consults, monitoring, and coordination are not paid separately.

The following sections list Current Procedural Terminology (CPT)/Current Dental Terminology (CDT)/Healthcare Common Procedure Coding System (HCPCS) codes and modifiers that LEAs/SEAs must use when billing. Billing must be in accordance with Nevada Medicaid billing instructions and national billing standards.

Screening, Diagnostic and Physician Services

Physician-Administered Drugs

Nevada Medicaid requires a National Drug Code (NDC), the NDC quantity, and the HCPCS code for each claim line with a physician-administered drug. For billing specifications, see the Nevada Medicaid NDC Billing Reference (select "NDC" from the "Providers" menu, then click "Billing Reference").

Vaccines

Nevada Medicaid and Nevada Check Up (NCU) do not reimburse providers for Vaccines for Children (VFC) Program vaccines. Providers are encouraged to enroll with the VFC Program, which provides free vaccines for eligible children. To enroll as a VFC provider, visit the Nevada Division of Public and Behavioral Health (DPBH) website at: http://dpbh.nv.gov/Programs/VFC/VFC_-_Home/. See the Centers for Disease Control and Prevention (CDC) website for more information on the VFC Program. All vaccine serums require NDCs.

Providers must use a zero rate for reimbursement for VFC vaccines, or the SL modifier. Even with a zero rate on the claim, quantity must be included on the claim or the claim will deny.

School Health Services (SHS)

Bill administration codes at the usual and customary charge and bill vaccines at a zero-dollar amount. Vaccine claims are billed with the NDC and are limited to one vaccine per claim line and one unit of measure per individual product.

Bill non-VFC vaccinations with the NDC and the usual and customary rate.

For more information on the HPV vaccine uses and restrictions please see Medicaid Services Manual (MSM) Chapter 1200 or the Centers for Disease Control and Prevention (CDC) website https://www.cdc.gov/vaccines/index.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2Fdefault.htm or the FDA vaccine website https://www.fda.gov/vaccines-blood-biologics/vaccines.

Healthy Kids also known as Early and Periodic Screening, Diagnostic and Treatment (EPSDT)

Use modifier EP or TS with the appropriate exam code in the table below.

- **Modifier EP** indicates a normal, routine screening.
- **Modifier TS** indicates that referral or follow-up services are recommended. When using modifier TS, complete Field 21 on the CMS-1500 claim form with the most current diagnosis code(s) that reflects the condition requiring follow-up.
- **Modifier 25** must be used with other non-preventive medicine Evaluation & Management (E&M) services (e.g., codes 99212-99215) when reported in conjunction with vaccine administration when the E&M service is significant and separately identifiable. (See Web Announcement 565 for additional instructions for the use of modifiers 25 and EP with vaccine and vaccine administration codes.) Continue to use EP and TS modifiers as well.

Medicaid may cover a sick visit and a Healthy Kids examination for the same recipient, at the same time of service, and for the same provider. All screening elements must be completed during a Healthy Kids examination as indicated in the Periodicity Schedule / Bright Futures and MSM Chapter 1500. Appropriate diagnosis and modifiers must be billed for each respective visit. Vaccines may be administered during a sick visit at the medical professional's discretion.

Services that are **not medical in nature**, including educational interventions, are not Medicaid covered benefits.

Tests can be classified as screening or diagnostic.

- Screening tests are done to detect potential diseases before a patient reports any signs or symptoms of a disease. Diseases uncovered through routine screenings are often easier to treat.
- Diagnostic tests are performed to confirm the presence of a disease, usually in a patient who shows signs or symptoms of a disease.

Referrals

When services are referred as a result of a Healthy Kids exam, a written referral should be furnished to the recipient, the parent/guardian or the provider who will perform the referred service. Referrals should include:

- Recipient's name
- Recipient ID
- Date
- Description of the abnormality
- Contact information for the recipient's primary physician (if different from the screening provider)
- Name of the provider who is to perform the referred service (if known)

90832		Psychotherapy, 30 minutes with patient. **SHS Additional Instructions**: Psychotherapy is a variety of treatment techniques in which a qualified mental health professional (QMHP) helps a student with a mental illness or behavioral disturbance identify and alleviate any emotional disruptions, maladaptive behavioral patterns, and contributing/exacerbating factors. The treatment can also include encouraging personality growth and development through coping techniques and problem-solving skills. **Documentation Tips** (Behavioral Health Services: Coding & Payment Guide 2022): Since the psychotherapy codes include time as a component of the code, the total time or the start and stop times of the psychotherapy should be noted in the medical record. Each psychotherapy note should include the description of a least one of the techniques used to treat the student's condition, such as insight oriented, behavior modifying, and/or supportive techniques. Providers should also include how the patient benefited by the therapy in reaching his or her goals. For example, "Supportive psychotherapy was utilized to help alleviate the student's depression." Record the major theme of the discussion but consider the student's privacy. Documentation should specify whether this is a single episode or recurrent, the current degree of depression, the presence of psychotic features or symptoms, and remission status (i.e., partial, full) when applicable. Documentation should clearly state the reasons requiring interactive complexity when reported separately.	• 30 minutes; bill 1 unit per day • The patient must be present for all or most of the session	All Levels	QMHP, LCSW, LMFT, LCPC and Clinical Interns working within their scope of practice.

Nursing Services

All nursing services must be Ordered, Prescribed or Referred (OPR) by a Physician, M.D.; Osteopath, D.O.; Advanced Practice Registered Nurse (APRN); or Physician's Assistant (PA). The OPR provider's NPI must be on all nursing claims. For more information on the OPR policy please refer to MSM 2800, School Health Services (SHS) at https://dhcfp.nv.gov/Resources/AdminSupport/Manuals/MSM/C2800/Chapter2800/.

The following services must be performed by a registered nurse (RN) in accordance with the POC or a Licensed Practical Nurse (LPN)/Certified Nursing Assistant (CNA)/Nursing Aide under the supervision and direction of a RN. Medicaid does not cover nursing procedures that can be delegated to unlicensed/uncertified assistive personnel by a RN following a competency assessment and proper training.

- Service is limited to 32 combined units per day (i.e., a claim that lists code T1002, code T1003 and code T1004 cannot exceed 32 units in one day).

Telehealth

Telehealth is the use of a telecommunications system instead of an in-person recipient encounter for professional consultations, office visits, office psychiatry services, and a limited number of other medical services. Please review Medicaid Services Manual (MSM) Chapter 3400 (Telehealth Services) for complete policy, covered services, non-covered services and coverage requirements. The telecommunications system used must be an interactive audio and video system. Standard telephones, facsimile machines, or electronic mail do not meet this criteria.

School Health Services (SHS)

The **distant site** is the site where the provider delivering services is located at the time the service is provided via a telecommunications system. The provider at the distant site must use Place of Service (POS) Code 02 when billing for services provided via telehealth. Use of the POS code certifies the service meets telehealth requirements. Note that for distant site services billed under Critical Access Hospital (CAH) method II on institutional claims, the GT modifier (telehealth service rendered via interactive audio and video telecommunications system) is required.

The **originating site** is the location where an eligible Medicaid/Nevada Check Up recipient is at the time the service is provided via a telecommunications system.

Telehealth may be used by any Nevada Medicaid and Nevada Check Up provider working within their scope of practice to provide services that can be appropriately provided via telehealth. If the originating site is enrolled as a Nevada Medicaid provider, they may bill HCPCS code Q3014. If the telecommunication system used is a recipient's smart phone or home computer, the facility fee may not be billed.
