Critical Access Hospital (CAH), Inpatient

Program overview

Critical Access Hospitals (CAHs) were established under the State Medicare Rural Hospital Flexibility Program as a result of legislation enacted as part of the Balanced Budget Act of 1997. CAHs represent a separate provider type with a different reimbursement methodology than general acute hospitals.

Medicaid provides reimbursement to CAHs for emergency, ICU/medical/surgical, maternity, newborn, skilled nursing or intermediate administrative days, emergency psychiatric and substance abuse treatment and acute medical detoxification services, as applicable. Swing bed placement, when prior authorized, is also reimbursed in facilities enrolled with the Division of Health Care Financing and Policy (DHCFP) that have swing bed licensure and certification.

Managed Care vs. Fee For Service (FFS)

When a recipient is enrolled in a Managed Care Organization (MCO), request prior authorization from and submit claims to the MCO. When a recipient is enrolled in the Fee For Service (FFS) plan, request prior authorization from and submit claims to Hewlett Packard Enterprise (HPE).

Rates

Provider-specific per diem rates have been established for each CAH provider. Provider-specific rates will not be shown in the Search Fee Schedule function on the Provider Web Portal.

Authorization

Claims will be denied if prior authorization is not obtained. See Medicaid Services Manual (MSM) Chapter 200, Section 203 for complete authorization requirements.

Use the Authorization Criteria search function in the Provider Web Portal at www.medicaid.nv.gov to verify which services require authorization. Authorization Criteria can be accessed on the EVS Login webpage under Resources (you do not need to log in).

Authorization is valid only for the date(s) specified. If the corresponding claim includes unauthorized dates of service, services provided on those dates cannot be paid.

Authorization does not guarantee payment of a claim. Payment is contingent upon eligibility, available benefits, contractual terms, limitations, exclusions, coordination of benefits and other terms and conditions set forth by the benefit program.

Requesting authorization

To request authorization:

- Complete form FA-3 or FA-8 as appropriate and submit through the online prior authorization system.
- Forms may be faxed if the provider is unable to use the online prior authorization system.

Authorization requests must be received within the time frames listed below.

- **One business day** if the recipient was Medicaid-eligible on the date of service.
- **Ten business days** if the recipient was not Medicaid-eligible upon admission, but obtained retroactive eligibility during their stay.
Critical Access Hospital (CAH), Inpatient

- If a recipient has been in the hospital for over 30 days when retroactive eligibility is determined, providers must:
  o Submit clinical information in (at least) 30-day increments and
  o Provide a weekly summary of the treatment plan for the date range(s) submitted.

- Ninety calendar days from the date of decision if the recipient obtained retroactive eligibility after discharge.

- Concurrent authorization requests must be received by the anticipated discharge date of the current/existing authorization period. For example, if the current authorization period is 05/11/15 through 05/15/15, then the concurrent authorization request is due by 05/16/15, which is the anticipated discharge date. If a concurrent authorization request is not received by the end date, a second authorization period, if clinically appropriate, can begin on the date HPE receives a concurrent authorization request. Nevada Medicaid will not pay for unauthorized days between the end date of the first authorization period and the begin date of a second authorization period.

If HPE requests additional clinical information to complete an authorization request, the additional information must be submitted within five days of the request or a technical denial will be issued.

After receipt of complete information, HPE will notify the provider of a determination within one business day for eligible recipients and within 30 days for discharged, retro-eligible recipients.

HPE’s determination is based on clinically appropriate standards and may include approval, denial or level of care adjustment.

Emergent transfers

The receiving hospital is responsible for obtaining admission authorization within one business day of admission.

Non-emergent transfers

The provider who initiates a recipient’s non-emergent transfer from an acute hospital to any other acute hospital (general, medical/surgery, psychiatric, rehabilitation or specialty) is responsible for requesting prior authorization before the transfer.

The receiving hospital is responsible for verifying that the transferring provider obtained authorization for a non-emergent transfer prior to agreeing to accept/admit the recipient and prior to the transfer.

Services that require authorization

See MSM Chapter 200, Section 203.1A (2) for a complete list of services that require authorization. Examples of services requiring prior authorization include:

- Any surgery, treatment or invasive diagnostic testing unrelated to the original reason for admission; or days associated with unauthorized surgery, treatment or diagnostic testing.
- Non-emergency admissions.
- Changes in level of care and/or transfer between hospital units.
- Hospital admissions for Induction of Labor (IOL) prior to thirty-nine (39) weeks gestation must be prior authorized as medically necessary to be eligible for reimbursement. Failure to obtain authorization for an elective Cesarean section or IOL prior to 39 weeks gestation will result in claim denial. Use Induction of Labor Prior to 39 Weeks and Scheduled Elective C-Sections form FA-8A.
Critical Access Hospital (CAH), Inpatient

- Hospital admissions for elective or avoidable Cesarean sections must be prior authorized and are reimbursed at the minimum federal requirement for a normal vaginal delivery, which for Medicaid equates to two inpatient per diem maternity days. Use form FA-8A.
- Hospital admission for Medicare Part A recipients after their Medicare benefits are exhausted. Reference Section 203.1.A in MSM Chapter 200.

Examples of services that must be authorized within one business day of admission include:

- Emergency admissions or transfers from one acute inpatient hospital to another (receiving facility’s responsibility for transfers).
- Admissions initiated through emergency or observation when a physician writes the inpatient admission order.
- Obstetric or newborn admissions:
  1) that, from the date of admission, exceed 3 calendar days for vaginal or 4 calendar days for medically necessary or emergency Cesarean delivery or 2) when delivery occurs immediately prior to hospital admission.

Acute inpatient admissions

Each request for acute inpatient admission must include specific pertinent medical information that substantiates that an acute inpatient admission meets both severity of illness and intensity of service requirements.

Reconsideration, peer-to-peer review, and fair hearings for acute inpatient admissions

If a combination of severity of illness and intensity of service criteria for inpatient admission is not presented in the authorization request submitted to HPE, the hospital provider, along with the attending physician, is encouraged to participate in a peer-to-peer review with HPE’s physician reviewer.

In preparation for a peer-to-peer review, the provider is responsible for obtaining from the attending physician, additional information regarding medical justification that supports the need for inpatient services and the position that care cannot be effectively rendered at a lower level of care.

If proper medical justification is not provided to HPE in an initial/continued stay request, a peer-to-peer review, and/or a reconsideration review, this demonstrates failure of the provider to comply with proper documentation requirements. New information will not be accepted at a hearing preparation meeting or during a Fair Hearing.

If proper documentation is not submitted as described above, the authorization request will not be considered by HPE at any later date.

Special billing instructions

Refer to the UB Claim Form Instructions to complete your claim. An Authorization Number issued by HPE must be entered on the UB-04 claim in Field 63A, B or C, as appropriate.

Emergency room

Emergency room services resulting in a direct inpatient admission in the same facility as part of one continuous episode of care are included in (rolled into) the inpatient hospital day per diem rate for the date of admission, even if the emergency services are provided on the calendar date preceding the admission date.
Critical Access Hospital (CAH), Inpatient

Non-U.S. citizens eligible for emergency medical only coverage

For non-U.S. citizens eligible for emergency medical only coverage, Nevada Medicaid covers services to stabilize the sudden onset of an emergency medical condition — services provided before the emergency or provided after the emergency has been stabilized are not covered.

For these persons, Medicaid does not cover:

- Non-emergent or elective services.
- Services for an existing, underlying, chronic condition.
- Services once an emergency medical condition is stabilized or in the absence of an emergency medical condition.

Reference “ICD-10-CM Emergency Diagnosis Codes for Non-U.S. Citizens with Emergency Medical Only Coverage” for a list of diagnosis codes for which emergency medical services are covered (at https://www.medicaid.nv.gov, select “Procedure and Diagnosis Reference Lists” from the “Prior Authorization” menu). This list also includes diagnoses related to the provision of outpatient emergency dialysis through the Federal Emergency Services Program. **Note:** Use ICD-10 codes on claims with dates of service on or after October 1, 2015.

Direct admissions from observation

When there is a direct inpatient admission from observation, the inpatient hospital per diem rate includes all observation/ancillary services that occur in the same facility as part of one continuous episode of care beginning on the same calendar date the physician writes the inpatient admission order.

Do not bill observation hours and ancillary service in addition to the inpatient per diem rate on the same calendar date.

Observation and ancillary services rendered on a calendar date preceding the rollover inpatient admission date may be billed as outpatient services.

Please refer to the Billing Guide for Provider Type 12, Hospital Outpatient.

Maternity

**Submit two claims** for maternity services: one for the newborn and a second for the mother. On claims for services provided to newborns, use the newborn’s 11-digit Recipient ID. (The newborn must have a Recipient ID before a claim for the newborn can be submitted.)

When billing for maternity services include both an ICD-10 procedure code and an ICD-10 diagnosis code on your claim. **Use ICD-10 codes on claims with dates of service on or after October 1, 2015.**

Cesarean section procedure codes and vaginal delivery procedure codes cannot be billed on the same claim. Hospital claims for Cesarean and vaginal delivery procedures on the same claim will deny with edit code 0643.

Tubal ligation

When a tubal ligation is performed at the time of obstetric delivery, be sure to submit a Sterilization Consent Form with your claim. Failure to provide this form with a claim, when a copy of the form is not on file with HPE, will result in denial of the inpatient day that the sterilization was performed. For additional requirements, see the Sterilization and Abortion Policy, which is located on the Providers Billing Information webpage at https://www.medicaid.nv.gov/providers/BillingInfo.aspx.
Prior Authorization Submission and Billing Instructions for Newborn and/or Neonatal Intensive Care Unit (NICU)

- The Division of Health Care Financing and Policy (DHCFP) will review NICU prior authorization requests per the table below effective with dates of service on or after January 1, 2015.
- Hospitals will submit prior authorization requests in the Provider Web Portal at the most appropriate InterQual Level and related National Uniform Billing (NUB) revenue code based on the table below.

### NURSERY/NICU LEVEL OF CARE

<table>
<thead>
<tr>
<th>Level of Care/InterQual*</th>

<tr>
<td>InterQual Level III &amp; IV</td>
<td>174</td>
<td>Level IV</td>
</tr>
</tbody>
</table>

* Level of Care/InterQual Level will be based on current published InterQual criteria/definitions. McKesson/InterQual® is the proprietary, nationally recognized standard utilized by Nevada Medicaid’s QIO-like vendor to perform utilization management, determine medical necessity, and appropriate level of care. Many hospitals in Nevada also use this same selected tool for self-monitoring.

**Corresponds with National Uniform Billing Committee revenue code descriptions and guidelines.

**Family Planning Admissions**

Refer to Sections 603.3 and 603.4 in MSM Chapter 600 for requirements.

**Swing Beds (Medicare Certified in rural or critical access hospitals only)**

Refer to the Billing Guide for provider type 44 (Swing-bed, Acute Hospital) for billing instructions. Refer to MSM Chapter 200, Attachment A, Policy #02-04 for Hospital with Swing Bed policy.

**Administrative Days**

Use revenue codes 0160 and 0169 to bill for administrative days, as applicable. At least one acute inpatient day must immediately precede an administrative level of care day. Refer to MSM Chapter 200, Attachment A, Policy #02-03 for administrative day policy.

Admission from the community, another facility, a physician’s office, an ER or observation directly to an administrative level of care are not covered.

**Admit/discharge/death notice**

All hospitals are required to submit Form 3058-SM to their local Welfare District Office whenever a hospital admission, discharge or death occurs. Failure to submit this form could result in payment delay or denial. To obtain copies of Form 3058-SM please contact the Welfare District Office or visit their website at [http://dwss.nv.gov](http://dwss.nv.gov) (select Welfare Forms from the Public Information menu). Refer to the Nevada Medicaid Services Manual, Chapter 200 for additional information.
