State Policy

The Medicaid Services Manual (MSM) is on the Division of Health Care Financing and Policy (DHCFP) website at [http://dhcfp.nv.gov](http://dhcfp.nv.gov) (select “Manuals” from the “Resources” webpage).

- **MSM Chapter 3700** covers policy for Applied Behavior Analysis (ABA) providers.
- **MSM Chapter 1500** covers policy for the Healthy Kids Program.
- **MSM Chapter 400** covers policy for behavioral health providers.
- **MSM Chapter 100** contains important information applicable to all provider types, including information regarding medical necessity.

Rates

Reimbursement rates for Applied Behavior Analysis (ABA) provider type 85 are listed online on the DHCFP website on the [Rates](http://dhcfp.nv.gov) webpage. Rates are also available on the Provider Web Portal at [www.medicaid.nv.gov](http://www.medicaid.nv.gov) through the Search Fee Schedule function, which can be accessed on the [Provider Login (EVS)](http://www.medicaid.nv.gov) webpage under Resources (you do not need to log in).

**EPSDT Screenings for All Children Include Autism Spectrum Disorder**

The Centers for Medicare & Medicaid Services (CMS) released guidance on July 7, 2014, indicating all children must receive Early Periodic Screening, Diagnostic and Treatment (EPSDT) screenings designed to identify health and developmental issues, which include Autism Spectrum Disorder (ASD). Currently, Nevada Medicaid and Nevada Check Up cover developmental screens (Current Procedural Terminology (CPT) code 96110) which are provided by Special Clinics (provider type (PT) 17), Physicians (PT 20), Advanced Practice Registered Nurses (PT 24) and Physician's Assistants (PT 77).

Authorization Requirements

Authorization is required for most behavioral health services, including those referred through the EPSDT program. Use the Authorization Criteria search function in the Provider Web Portal at [www.medicaid.nv.gov](http://www.medicaid.nv.gov) to verify which services require authorization. Authorization Criteria can be accessed on the [Provider Login (EVS)](http://www.medicaid.nv.gov) webpage under Resources (you do not need to log in).

- Behavioral Initial Assessment and re-assessments do not require prior authorization. Assessments are limited to one in every 180 days or unless prior authorized.
- Adaptive Behavioral Treatment (individual and group) requires prior authorization.

For questions regarding authorization, call Nevada Medicaid at (800) 525-2395 or refer to MSM Chapter 3700. Prior authorization may be requested through the Nevada Medicaid [Provider Web Portal](http://www.medicaid.nv.gov):

- Form FA-11E: Applied Behavior Analysis (ABA) Authorization Request
- Form FA-11F: Autism Spectrum Disorder (ASD) Diagnosis Certification for Requesting Initial Applied Behavior Analysis (ABA) Services

Incomplete prior authorization requests cannot be processed. Incomplete prior authorization requests will be pended to the provider for additional information. The submitter will have five business days to supply the missing information, or a technical denial will be issued.

Authorization does not guarantee payment of a claim. Payment is contingent upon eligibility, available benefits, contractual terms, limitations, exclusions, coordination of benefits and other terms and conditions set forth by the benefit program.

**Limits for Authorizations**

**Focused Delivery Model:** 15-25 hours per week for all ABA services. Focused ABA is treatment directly provided to the individual for a limited number of specific behavioral targets.
Applied Behavior Analysis (ABA)

Comprehensive Delivery Model: 25-40 hours per week for all ABA services. Comprehensive ABA is treatment provided to the individual for a multiple number of targets across domains of functioning including cognitive, communicative, social and emotional.

Session limits may be exceeded with prior authorization and documentation of medical necessity. Requests above the policy limits will be reviewed on a case-by-case basis at the provider request.

Supervision is allowed up to 20% of the treatment hours.

Request timelines

- **Initial request**: Providers are instructed to submit the initial request no more than 15 business days before and no more than 15 calendar days after the start date of service.

- **Continued service requests**: If the recipient requires additional services or dates of service (DOS) beyond the last authorized date, you may request review for continued service(s) prior to the last authorized date. The request must be received by Nevada Medicaid by the last authorized date, and it is recommended these be submitted 5 to 15 days prior to the last authorized date.

- **Unscheduled revisions**: Submit whenever a significant change in the recipient’s condition warrants a change to previously authorized services. The units that were approved for services prior to the start date of the Unscheduled Revision are no longer valid, and only the newly approved units can be used from the new date forward. Must be submitted during an existing authorization period and prior to revised units/services being rendered. The number of requested units should be appropriate for the remaining time in the existing authorization period.

- **Retrospective request**: Submit no later than 90 days from the recipient’s Date of Decision (i.e., the date the recipient was determined eligible for Medicaid benefits). All authorization requirements apply to requests that are submitted retrospectively.

Billing and Claim Instructions

- Each service provided must be billed with the National Provider Identifier (NPI) of the actual provider of the service, not the supervising clinician.

- Each individual servicing provider may provide billable services for no more than 12 hours on any given day.

- Claims must be submitted with diagnosis code F84.0 (Autism Spectrum Disorder), diagnosis code Q86.0 (Fetal alcohol syndrome) or other condition for which ABA is recognized as medically necessary.

- Date span billing is not permitted.

- Providers permitted to bill the PT 85 billing codes include:
  - PT 85 (Applied Behavior Analysis)
  - PT 60 (School Health Services)
  - PT 47 (Indian Health Services/Tribal Clinics/Tribal FQHCs)

Use Direct Data Entry (DDE) or the 837P electronic transaction to submit claims to Nevada Medicaid. For billing instructions, see the Electronic Verification System (EVS) Chapter 3 Claims on the EVS User Manual webpage and the Transaction 837P companion guide, which is located on the Electronic Claims/EDI webpage.

National Correct Coding Initiative (NCCI) Edits and Service Limitations

The objective of the National Correct Coding Initiative (NCCI) is to promote correct coding methodologies. The Centers for Medicare & Medicaid Services (CMS) is responsible for the development and administration of the NCCI Edits: “The CMS developed its coding policies based on coding conventions defined in the American Medical Association’s CPT Manual, national and local policies and edits, coding guidelines developed by national societies, analysis of standard medical and surgical practices, and a review of current coding practices.”
Applied Behavior Analysis (ABA)

Nevada’s Medicaid Management Information System (MMIS) uses NCCI Edits in the processing of Nevada Medicaid claims. DHCFP receives quarterly and annual NCCI Edit updates that are added to the MMIS. Providers can find the most current Annual Code report and the quarterly Medically Unlikely Edits (MUE), Procedure to Procedure (PTP) and Add-On Code reports on the following website:

It is not possible to provide the most current quarterly or annual changes in this billing guide; for the most current information please reference the website link provided above.

Providers are reminded to bill procedures with the correct modifier combinations, units of service provided and correct code combinations.

Note: It is the responsibility of providers to ensure the use of current CPT codes, service limitations and MUEs are applied when billing claims.

Ordering, Prescribing or Referring (OPR) Provider Requirements

The Patient Protection and Affordable Care Act and the Centers for Medicare & Medicaid Services (CMS) require all ordering, prescribing and referring physicians to be enrolled in the state Medicaid program (§455.410 Enrollment and Screening of Providers). The Affordable Care Act (ACA) requires physicians or other eligible practitioners to enroll in the Medicaid program to order, prescribe and refer items or services for Medicaid recipients, even when they do not submit claims to Medicaid. Physicians or other eligible professionals who are already enrolled in Medicaid as participating providers and who submit claims to Medicaid are not required to enroll separately as OPR providers.

For any services or supplies that are ordered, prescribed or referred, the NPI of the Nevada Medicaid-enrolled Ordering, Prescribing or Referring (OPR) provider must be included on Nevada Medicaid/Nevada Check Up claims or those claims will be denied. To prevent claim denials for this reason, please confirm that the OPR provider is enrolled with Nevada Medicaid; this can be done on the Provider Web Portal by using the Search Providers feature:

Electronic Claims instructions: When reporting the provider who ordered services such as diagnostic and lab, use Loop ID-2310A. For ordered services such as Durable Medical Equipment, use Loop ID-2420E. For detailed information, refer to the 837P FFS Companion Guide located at: https://www.medicaid.nv.gov/providers/edi.aspx

Direct Data Entry/Provider Web Portal instructions: On the Service Detail line enter the OPR provider’s NPI in the Referring/Ordering Provider ID field and select “Yes” or “No” to indicate if it is an Ordering Provider. For further instructions, see the Electronic Verification System (EVS) User Manual Chapter 3 located at:

https://www.medicaid.nv.gov/providers/evsusermanual.aspx

Specialty 312 and 314 Services

Claims and prior authorization requests for services provided by a Licensed and Board Certified Assistant Behavior Analyst (BCaBA) and a Registered Behavior Technician (RBT) must include modifier UD.

Covered Services

The table on the following pages lists covered codes, code descriptions, and prior authorization / billing information as needed. The “Do Not Report” list is not all-inclusive. Providers are responsible for reviewing the current American Medical Association (AMA) CPT Professional Edition code book for the use of appropriate codes within the provider’s scope of practice. For coverage and limitations, and the list of non-covered services, refer to MSM Chapter 3700.
