Tolerances Modified for Controlled Substance Refills

Early refill and quantity limitation tolerances for controlled substance prescription refills for Nevada Medicaid recipients have been modified per the recommendation of Nevada's Drug Use Review Board. Effective immediately, the current 20 percent tolerance for the early refill and days supply/quantity limitations on all controlled drugs has been reduced to a 10 percent tolerance. For the normal 30-day supply, this would mean a refill could not occur until the 27th day of the 30-day period versus the 24th day of the 30-day period.

If you have questions, please contact First Health Services' Technical Call Center at (800) 884-3238.
