Pharmacy Announcement

Geodon® Point of Sale Notification

Effective August 1, 2012, Nevada Medicaid began reimbursing for the newly available generic ziprasidone (brand Geodon®). To maintain continuity of care, the pharmacy Point of Sale system was updated to allow recipients currently getting brand Geodon to continue getting the brand name. Both brand Geodon and generic ziprasidone will be considered preferred on the Preferred Drug List until the next Preferred Drug List update.
