In addition to the above referenced chapters, providers will need to review their Provider Type specific Billing Guideline from the Medicaid website in order to determine which additional chapters must be read. Policy chapters will review important information such as Coverage & Limitations, Prior Authorization Requirements and other pertinent information related to Nevada Medicaid.

It is important to review each item listed on the Checklist as the information will be different for each Provider Type.
Required Enrollment Documents – Business Associate Addendum (NMH-3820)

The Business Addendum may be a requirement depending on the Provider Type selected to enroll with. The Addendum is an additional contract with the Division of Health Care Financing and Policy (DHCFP) that is made between a Covered Entity and a Business Associate that outlines responsibilities of each party concerning Protected Health Information (PHI). If this form is required per the Checklist, make sure to read and understand the content as well as complete the last page of the form. All pages must be included when submitting an application. If any pages are missing, the application may be returned, which will cause a delay in the processing of the application.

**Chapter 1: Getting Started** – Overview of how to use the OPE tool

**Chapter 2: Initial Enrollment Application** – Provides step-by-step instructions on how to complete an initial application

**Chapter 2 Addendum: Ownership & Relationships Example** – Provides additional clarification for users when answering the Ownership Disclosure and Relationship questions

**Chapter 3: Revalidation and Updates** – Instructions on how to revalidate or make changes to a provider profile through the Electronic Verification System (EVS)
The Provider Revalidation Report is a PDF document that allows any user to view a National Provider Identifier (NPI) to determine the date by which their contract will need to be revalidated. Providers are required to revalidate with Nevada Medicaid every five (5) years. The only exception is that Durable Medical Equipment (Provider Type 33) providers must revalidate every three (3) years.

Viewing the report will assist providers with making sure that their contract with Nevada Medicaid does not terminate. If a contract terminates due to a provider not submitting a revalidation, the provider will then need to complete and submit a brand new application. If a provider’s contract terminates and the provider attempts to bill for dates of service that happen after their termination date, those particular claims will be denied.

Enrolling as a Group Provider with Nevada Medicaid via the OPE Tool
Initial Application

The OPE tool may be accessed from a variety of different locations, including: the Provider Enrollment webpage, Featured Links (left-hand side of every webpage) or Provider Links (right-hand side of every webpage).
The OPE landing page will have several options that a user can select from:

- Provider Enrollment Application will begin a new application
- Resume Enrollment allows certain users to complete an application at a later time
- Enrollment Status allows users to check the status of their application online, which eliminates the requirement to call the Nevada Medicaid Customer Service Center
In order to begin a new application, select Provider Enrollment Application.

For providers that are enrolling as two different provider types, two applications must be submitted—one for each provider type.
Frequently Viewed/Used Buttons

The Continue button is typically located at the end of each page of the application and will allow the user to continue with the application.

The Finish Later button is typically located at the end of each page of the application and will allow the user to complete the application at a later time. When the user is going to resume the application, the user must have the FEIN/SSN, Authorization Tracking Number and valid password.

The Cancel button is typically located at the end of each page of the application and will allow the user to stop or cancel the application process.
Frequently Viewed/Used Buttons

The Question Mark or Help button is typically located toward the top right of each page. Selecting the Help button will provide the user with details of the currently viewed page as well as basic information regarding each question of the application.

The Add button is located throughout the application regarding specific questions. When a user is answering a question that has an Add button, the Add button must be selected after inputting all applicable information in order for the information to save to the application before submitting. If a user forgets to select Add, the OPE tool will not allow the user to continue until Add is selected.

The Reset button is located throughout the application regarding specific questions and will accompany the Add button. If the user inputs all applicable information and before selecting Add determines that the information is incorrect, select Reset to erase the information and input the correct information.
The Welcome page provides relevant information regarding enrolling in the Nevada Medicaid program, as well as:

(A) Table of Contents. Table of Contents will always be available and once a user has completed a section, the Table of Contents will hyperlink each completed section of the application in case a user needs to go back and update information.

(B) Contact Us and FAQ links.

In order to continue with the application, select Continue.
Request Information

**Enrollment Type:** This will be selected from a drop-down menu. Select Group.

**Ownership Change:** If this option is selected, the user will be prompted with a pop-up indicating that a copy of the purchase agreement must be attached.

**Provider Type:** Select the appropriate provider type from the drop-down menu. Reminder: if the provider is enrolling as two different provider types, an application for each provider type must be submitted separately. Nevada Medicaid cannot advise a provider as to which provider type they should select. Providers should review the Billing Information and Policy Chapters to make an informed decision.

**Requested Enrollment Effective Date:** If an application is approved, this will be the start date of the provider’s contract. The provider can backdate an application up to 180 days depending on services previously rendered. If requesting an effective date of more than 180 days, a written explanation and any supporting documentation are required to be submitted along with the application.
Federal Tax ID: This information is issued by the IRS and should only be used for a Group application as the FEIN is used to identify a business entity.

Indicate whether or not the provider is currently enrolled as a provider.

Indicate whether or not the provider was previously enrolled as a provider in Nevada Medicaid. If Yes is selected, an additional field requiring the previous NPI be input will appear. If No is selected, no additional information will need to be provided for this question.
Request Information, continued

The Contact Information section does not have to be filled out with the provider’s information. This section is for a contact regarding the application, should Nevada Medicaid have any questions.

If the user cannot remember the password that was created and needs to access the application at a later date, the user will need to complete an entirely brand new application as Nevada Medicaid is unable to reset passwords for the OPE tool.

Once the password is confirmed, select Submit.
Once the password has been submitted, the Application Tracking Number (ATN) will be generated. Users should take note of the ATN as this will be used to verify status after the application has been submitted. In addition to the ATN, users will also be required to record the FEIN or SSN and password. Again, this is due to the fact that Nevada Medicaid is unable to reset a password for the OPE tool.

Select Continue.
A system-generated email will be sent to the contact email listed on the application.

Thank you for your interest in Nevada Medicaid Program. Your Nevada Medicaid Program tracking number is 112780. This tracking number must be kept for future reference. **DEA (Drug Enforcement Administration) Number:** If a provider will be dispensing pharmaceuticals in the office, the provider must have a DEA number issued.

Note: If the provider does not have either one of these pieces of information because lab tests are not being completed in office nor are pharmaceuticals being dispensed, the user can input a bypass code of nine 9s (999999999) into each field.
Providers are required to have a Taxonomy Code. Taxonomy Codes are determined by the provider and not Nevada Medicaid. Providers should review NPPES for their registered taxonomy code. To add a Taxonomy Code, select the + symbol.

2.4 Note about Completing the Ownership Information Section

There may be times when ownership total does not equal 100%, as it did in Section 2.2, because some owners own less than 5% and would not be listed. When that happens, put detailed notes in the Explanation if total ownership is less than field.

There may also be times when the parent company is publicly traded and cannot provide people’s names who own 5% or more of the company. In this situation, it is suggested to attach a letter explaining the circumstances to aid in processing the application more quickly.

**Direct ownership interest** is defined as the possession of stock, equity in capital or any interest in the profits of the disclosing entity. A disclosing entity is defined as a Medicaid provider or supplier, or other entity that furnishes services or arranges for furnishing services under Medicaid or the Maternal and Child Health program, or health-related services under the social services program.

**Indirect ownership interest** is defined as ownership interest in an entity that has direct or indirect ownership interest in the disclosing entity. The amount of indirect ownership in the disclosing entity that is held by any other entity is determined by multiplying the percentage of ownership interest at each level. An indirect ownership interest must be reported if it equates to an ownership interest of 5 percent or more in the disclosing entity. Example: If A owns 10 percent of the stock in a corporation that owns 80 percent of the stock of the disclosing entity, A’s interest equates to an 8 percent indirect ownership and must be reported.

Agreement

There are three (3) sections of the Provider Enrollment: Agreement page. The first section is the Instruction section which will provide instructions regarding the additional sections of the Agreement page. Providers must read and understand before proceeding with the remainder of the application.
The second section of the Agreement page is the Terms of Agreement. The user must indicate that they accept the terms and condition (A) and complete the remaining fields.

In order to complete the section, the user must download the Nevada Medicaid and Nevada Check Up Provider Contract in order to be able to complete the question regarding the acceptance of the terms.

For this example, the question has been greyed out until the user downloads the contract. Once the contract has been downloaded, the question will then appear and can be answered.
The last section covers the Declaration, which indicates that the user has answered all questions to the best of their ability.

Once the Declaration is read and understood, select Continue.
The next section is where users will need to upload all required documents. Users will need to review the Enrollment Checklist for the Provider Type to determine if all documents have been uploaded.

Transmission Method will always default to FT-File Transfer and this does not need to be changed. Select the Attachment Type from the drop-down menu. Select Choose File and locate the appropriate document for uploading. Once document is placed in the application, select Add.

Users will also need to make sure that the proper EFT documentation is also uploaded.

Once all applicable documents are uploaded, select Continue.
The Summary Page will allow users to view the information input into the application before submitting to Nevada Medicaid for approval.

Once the user reviews and determines that there are no changes necessary, select Confirm in order to submit to Nevada Medicaid for processing. After submitting, users can view the status of the application by logging into the OPE tool. Users will also receive mailed communication from Nevada Medicaid indicating whether or not the application has been accepted.

After submission, users should allow at least a minimum of 2-3 weeks for processing. There are some cases in which the processing can take more time.
