Dear Nevada Medicaid/Nevada Check Up Pharmacy Provider:

Nevada Medicaid Fee-for-Service and Nevada Check Up Fee-for-Service are beginning a new Diabetic Supply Program effective March 1, 2009. Through this new program, two manufacturers (Abbott Diabetes Care, Inc. and LifeScan, Inc., a Johnson & Johnson company) will provide the State with rebates for preferred blood-glucose monitors and test strips. This will help the State lower diabetic supply expenditures without reducing rates or affecting quality and access to care.

*This program applies only to recipients who have Medicaid as their primary coverage—it does not apply to recipients whose diabetic supplies are covered by either Medicare or private insurance.*

The new Diabetic Supply Program allows for a one-time replacement of a recipient's current monitor for a new one from the list of products below. Eligible recipients have been informed by mail that they may obtain a new monitor through their pharmacy or by contacting the manufacturer directly (see contact information in the table below). After the initial replacement, a new monitor will be covered once every two years.

**Effective March 1, 2009, only the monitors listed below (and their corresponding test strips) will be covered.** Recipients who are legally blind may obtain specialized monitors through the prior authorization process.
