Web Announcement 105

Multiple Claim Lines for Radiology Services

Claims submitted for radiology services (Provider Types 20 and 27) with modifier 76 that previously denied in error are being reprocessed. Remittance Advices (RAs) dated Oct. 6, 2006, will report the result of any reprocessed claims. Some radiology services claims had been denying if they showed the same service on multiple lines, the same date of service and the same provider. These radiological claims that do not exceed limitations will no longer deny in error.

Please review [Chapter 300](#) of the Nevada Medicaid Services Manual (at <http://dhcfp.state.nv.us>) to verify coverage of services and the [Billing Guidelines for Provider Type 27](#) (at <http://nevada.fhsc.com>) for additional coverage and prior authorization information.
