## Providers May Access Free Webcasts Regarding NPI

The Workgroup for Electronic Data Interchange (WEDI) and the Blue Cross and Blue Shield Association (BCBSA) have joined together to offer free on-demand audio and video webcasts regarding the National Provider Identifier (NPI) through the first quarter of 2007.

Two 60-minute webcasts include PowerPoint materials designed to educate providers about NPI basics, such as: who needs an NPI; the application process; NPI and paper claim submitters; and provider practice considerations and impacts.

The links to the audio-on-demand and video-on-demand webcast sessions and other NPI resources are available at:
