Announcement 1376

## **Attention Provider Types 12 and 17: Claims with New 2017 Therapy Codes**

Update to [Web Announcement 1299](#): The new 2017 therapy codes have not been updated in the claims payment system for provider types (PTs) 12 (Hospital, Outpatient) and 17 (Special Clinics). Claims for the new 2017 therapy codes with dates of service on or after January 1, 2017, billed by PTs 12 and 17 are being denied for edit codes 0210 (No pricing segment is on file) and/or edit code 0309 (Services not covered). The issue is being corrected. The affected claims will be automatically reprocessed once the codes have been updated. Providers do not need to resubmit or appeal the denied claims. A future web announcement will notify providers when the codes are updated in the system and when the claims will be reprocessed.
