Web Announcement 1452

Legislative Assembly Bill AB473 Extends NRS 422.4025 Sunset until June 30, 2019

Current law requires the Department of Health and Human Services to include certain specified drugs on the list of drugs excluded from restrictions. Nevada Revised Statute (NRS) 422.4025 includes exclusion of certain antipsychotic medications, anticonvulsant medications and antidiabetic medications from the restrictions that are imposed on drugs which are on the Nevada Medicaid Preferred Drug List (PDL).

Legislative Assembly Bill AB473 has delayed the prospective expiration of such provisions to June 30, 2019. The current NRS will be updated to reflect this change.
