Casting Q Codes Reactivated

Casting Q codes that had been inactivated and were causing claims to deny in error have been reactivated for claims to pay correctly effective October 16, 2017.

Claims for casting Q codes with dates of service on or after July 1, 2016, through claims processed before October 16, 2017, that denied in error with edit codes 0309 (Services not covered) or 0210 (No fees found on file) or 0148 (Rendering provider is not certified to perform procedure) will be automatically reprocessed. Providers do not need to resubmit or appeal the denied claims. A future web announcement will notify providers when the claims are reprocessed.
