Web Announcement 1602

News Regarding Direct Data Entry Claims Solution for Providers and Allscripts-Payerpath Access

One of the opportunities the modernization of the Medicaid Management Information System (MMIS) will offer to providers is a Direct Data Entry (DDE) solution allowing providers to submit claims electronically through the Nevada Medicaid Provider Web Portal themselves. This will include the submission of Professional (CM-1500), Dental (ADA) and Institutional (UB-04) claims, as well as any corresponding attachments. Providers should be aware that effective February 2019, Nevada Medicaid will no longer provide free electronic claims submission through Allscripts-Payerpath for Medicaid providers. Providers will continue to have the option of submitting electronic claims through an approved Nevada Medicaid Trading Partner. Allscripts-Payerpath is one of many DHCFP-approved Trading Partners/clearinghouses who provide claims management and claims submission for Nevada Medicaid providers.

Future web announcements will provide additional details regarding the DDE, including provider training opportunities to assist providers in preparing to use the DDE solution.
