Web Announcement 1674

Attention Electronic Billing Trading Partners:

Preparations Continue for the Medicaid Management Information System Modernization Project – Trading Partner Enrollment and Certification (Testing)

The Division of Health Care Financing and Policy (DHCFP) is proceeding with plans to implement a new, modernized Medicaid Management Information System (MMIS) in February 2019. Nevada Medicaid existing and new Trading Partners (TPs) may begin the enrollment and certification process. A step-by-step description of the enrollment process can be found in the Trading Partner User Guide at <https://www.medicaid.nv.gov/providers/edi.aspx>. In addition to assisting with the enrollment process, the User Guide will provide information on viewing TP application status, registering as a TP, connectivity, testing and submission of test files with Nevada Medicaid.

Existing Trading Partners (formerly known as Service Centers) **must** re-enroll in order to receive a new 8-digit Trading Partner (TP) ID. The new 8-digit TP ID will be used (1) during the certification process for the new modernized system and (2) **after** go-live in February 2019. The current 4-digit TP ID, or Service Center number, will continue to be used for Production files in the current MMIS.

The Trading Partner enrollment process can be completed at the following location:
<https://portaluat.medicaid.nv.gov/hcp/provider/Home>.

Notes:

- Inbound and Outbound transactions will be validated through Strategic National Implementation Process (SNIP) Level 4 as part of TP certification. The new TP and Receiver IDs will be used in the submission of test files, but should not be used for Production files until go-live in February 2019.
- In preparation for the new, modernized MMIS, Nevada Medicaid has created new Inbound and Outbound Companion Guides for Fee-for-Service and Encounter claims. Trading Partners will need to make changes to their interface files per instructions in the new EDI Companion Guides. The new Companion Guides have been posted to the Nevada Medicaid website at <https://www.medicaid.nv.gov/providers/edi.aspx> under "Inbound" or "Outbound" EDI Companion Guides.
- The website hyperlinks listed in the Inbound/Outbound Companion Guides will not be used in the Production environment until the go-live date of February 2019. Please review the details, but do not use them in Production until February 2019.
- To review a copy of the Trading Partner Agreement prior to beginning the enrollment process, please go to <https://www.medicaid.nv.gov/providers/edi.aspx> and look under Trading Partner Enrollment and Certification (Testing) Documents.
- If a Trading Partner exchanges **only 835s** (electronic remits), no certification of this transaction type is needed, but enrollment is still required.
- Nevada Medicaid has provided a sample SNIP 4 compliant 835 electronic remit, located at <https://www.medicaid.nv.gov/providers/edi.aspx>, for Trading Partners to download and use for testing. Refer to the Trading Partner Enrollment and Certification (Testing) Documents section.

The EDI Trading Partner Enrollment and Certification process will be available through the remainder of 2018; however, it is recommended the process be completed as early as possible to work through any issues that may occur. If you have any questions regarding Trading Partner Enrollment and Certification, please send an email to: nvmed.editestingsupport@dxc.com.
