## **NDC Claims Will Pend During Transition Period**

During the first few weeks beginning Jan. 1, 2008, claims submitted with the National Drug Code(s) (NDC) will temporarily pend with edit code 0899 (edit message: NDC claims are pending during transition period). This pend action will provide Nevada Medicaid the opportunity to assure appropriate adjudication of these claims. The system will automatically release these claims after this transition period. No action will be required by the provider.
