Web Announcement 182

REVISED INFORMATION – Reprocessing Has Been Delayed on Behavioral Health Claims

Due to State budget considerations, Nevada Medicaid has delayed the scheduled automatic reprocessing of claims submitted by Provider Type (PT) 14 (Behavioral Health Outpatient Treatment), PT 61 (Behavioral Health Treatment Home) and PT 82 (Behavioral Health Rehabilitative Treatment) that denied incorrectly for duplicate edits. PT 14, PT 61 and PT 82 will be notified when the claims will be reprocessed.

The system has been updated to adjudicate current and ongoing claims appropriately.
