Announcement 1853

## **Modernization: New Claim Adjustment Reason Code Will Assist With Medicare Cost Reporting**

Prior to March 7, 2019, pricing explanation of benefits (EOB) were processing with Claim Adjustment Reason Code (CARC) CO-96 (Non-covered Charges), which has created problems with Medicare Cost Reporting. Going forward, EOBs will show with the CO-45 (Claim Paid at Maximum Allowed Amount). If a provider needs their 835 re-run to show the CO-45 codes, please send an email to [nevadaprovidertraining@dxc.com](mailto:nevadaprovidertraining@dxc.com).
