Web Announcement 1973

Attention Provider Type 17 (Special Clinics):

Update Regarding Medicare Crossover Claim Denial Process

Provider type 17 (Special Clinics) providers who are submitting claims to Medicare are being paid in error by Medicaid for encounter codes that are not accepted by Medicare. Currently, in order to correct the payment, providers need to void the Medicare crossover claim and resubmit the claim to Medicaid.

The Medicaid Management Information System (MMIS) is being updated to deny the claims that crossover from Medicare automatically so providers will not need to void the Medicare claim before submitting the claim to Medicaid. A future web announcement will notify providers when the MMIS update has been completed.
