Web Announcement 2785

## **Reminders to Out-of-State and Catchment Area Providers Enrolling with Nevada Medicaid**

Out-of-state providers may request to enroll to receive payment for urgent/emergency services rendered outside of Nevada borders to Nevada Medicaid recipients by submitting an urgent/emergency application through the [Online Provider Enrollment \(OPE\) tool](#).

Providers (individuals/groups) located in a catchment area are required to submit a Group or Individual provider enrollment application through the OPE tool. Catchment area providers cannot enroll as an urgent/emergency provider.

A table showing a complete list of catchment zip codes is available in the [Provider Enrollment Information Booklet](#) and in the [Billing Manual for Nevada Medicaid and Nevada Check Up](#).
