Web Announcement 2859

Claims for Radio-Pharmaceutical Codes

Claims for radio-pharmaceutical codes have been paying incorrectly as the codes were not aligned correctly in the Medicaid Management Information System (MMIS).

The MMIS has been updated and claims for radio-pharmaceutical codes will adjudicate correctly effective on claims with dates of service on or after August 1, 2022. No claims will be reprocessed automatically as this update is a go-forward change.

Providers are reminded to bill therapeutic radio-pharmaceutical codes with a National Drug Code (NDC). Diagnostic radio-pharmaceutical codes must be billed with the appropriate Healthcare Common Procedure Coding System (HCPCS) code only and do not require an NDC.
