Urgent Message for PASRR Users: Temporary Method to View Recipient History

Nevada Medicaid has implemented upgrades to the Pre-Admission Screening Resident Review (PASRR) portal. Effective September 26, 2022, the new link to access the PASRR is <https://pasrrprod.medicaid.nv.gov/uspforms>

Due to this implementation, providers are advised to use the following temporary method to view a recipient's PASRR and Level of Care (LOC) history data.

- 1) Enter the required search criteria using the Applicant Look Up function to bring up the recipient's profile.
- 2) Click the Screening ID link in the *Screening History* window to access the Detail page.
- 3) View the PASRR and/or LOC number, Start Date and Expiration Date, in the Applicant Information section.

Note: If the PASRR or the LOC fields are blank, a PASRR or LOC has not been submitted under this recipient's profile.
