Web Announcement 2964

Catchment Area Zip Codes Updated in Medicaid Management Information System (MMIS)

The zip codes listed in the table below are located in Nevada Medicaid catchment areas. These zip codes were incorrectly indicated as out-of-state in the Medicaid Management Information System (MMIS). Effective September 20, 2022, the MMIS was updated to correctly indicate these zip codes as catchment areas.

Effective immediately, **providers located in these zip codes must follow the timely filing claim submission window of 180 days for catchment areas**, and not the 365 days applicable to out-of-state providers. Claims with Third Party Liability (TPL) must be received within 365 days of the date of service or date of eligibility decision.
