Nevada Medicaid Web Announcement 3030

Nevada Medicaid Is Creating New Medicare Cost-Sharing Provider Type

Effective March 21, 2023, Medicare providers may enroll with Nevada Medicaid under provider type 94 - Medicare Cost-Sharing. This new provider type will allow Medicare providers not currently enrolled with Nevada Medicaid to enroll for purposes of processing and adjudicating claims for Medicare cost-sharing liability for services furnished to recipients eligible for both Medicaid and Medicare benefits.

Medicare providers interested in enrolling with Nevada Medicaid for Medicare Cost-Sharing must enroll using the [Online Provider Enrollment \(OPE\) tool](#), which will accept these enrollments starting March 21, 2023. An additional web announcement will be posted with further information when enrollment is open.
