

# Nevada Medicaid Fee-for-Service to Implement New Program for Prior Authorization Management of Physician Administered Drugs

## New Program Information

Nevada Medicaid and Nevada Check Up will be implementing a change in the way certain specialty drugs that fall under the medical benefit are managed. This new program will be administered by Magellan Rx Management (Magellan Rx) effective **July 01, 2023**.

Beginning **July 01, 2023**, providers should begin contacting Magellan Rx to obtain prior authorizations for the in-scope drugs for Fee-for-Service (FFS) recipients with dates of service on or after **July 01, 2023**. You will be able to complete the prior authorization process via web or phone. Prior authorization will be required for the medical specialty drugs when they are administered in the following Places of Service (POS):

- **Physician Office (POS 11)**
- **Patient Homes (POS 12)**
- **Outpatient Facilities (POS 19, 22)**

Providers may view the most current version of the in-scope specialty drugs list and clinical guidelines at <https://dhcfp.nv.gov/Resources/AdminSupport/Manuals/MSM/C1200/Chapter1200/>.

## Provider Education

Providers are invited to attend a one-hour provider education webinar to become familiar with the Magellan Rx Physician Administered Drug Program prior authorization process for Nevada Medicaid FFS recipients. Below are the dates and times from which to choose:

## Fee Schedule

In addition to the above prior authorization program, we will be implementing a new Fee Schedule for physician administered drugs. Starting in June, please check <https://dhcfp.nv.gov/Resources/Rates/FeeSchedules/> for Fee Schedule information. The Fee Schedule will be incorporated into the current point-of-sale lesser of logic used for claims payment.
