Urgent Message for PT 33 Regarding Claims Submitted for Incontinent Supplies

Nevada Medicaid and Magellan Medicaid Administration, Inc. have identified that edit codes 0941 and 0963 are causing some claims for incontinent supplies to deny or cut back for limitations inappropriately. Affected claims were submitted with dates of service on or after March 9, 2010.

These edits are 0941 - limitation audit, incontinent products, 186 units per month and 0963 - limitation audit, incontinent products, 100 units per month.

Once the system has been updated, affected claims with dates of service on or after March 9, 2010, that denied or cut back inappropriately with these two edits will be reprocessed. Affected claims would be subject to any additional applicable edits. The adjudications of any affected claims will appear on a future remittance advice.

Until the affected claims are reprocessed and are reported on a remittance advice, no further action is needed by providers for these claims. **Please do not resubmit these claims or appeal denials or cut backs as these actions could delay reprocessing the claims.**
