Nevada Medicaid Web Announcement 3482

Attention All Providers: New Provider Enrollment Tool Phased Implementation

The Division of Health Care Financing and Policy and their fiscal agent, Gainwell Technologies, will be implementing the new provider enrollment tool, Provider Flex, as a phased implementation. This means that the new tool will be released in phases based on provider types. These phases are as follows:

- **Phase 1** (Estimated Rollout: **April**): The following provider types:
 - 24 (Advanced Practice Registered Nurses)
 - 72 (Nurse Anesthetist)
 - 74 (Nurse Midwife)
 - 77 (Physician's Assistant)
- **Phase 2** (Estimated Rollout: **May**): Provider type 20 (Physician M.D., Osteopath, D.O.)
- **Phase 3** (Estimated Rollout: **June**): Provider types 14 (Behavioral Health Outpatient Treatment) and 82 (Behavioral Health Rehabilitative Treatment)
- **Phase 4** (Estimated Rollout: **July**): All provider types

Dates for the phased implementation will be shared directly with each provider type as they are moved to Provider Flex. When you enter your implementation phase, you will be provided a link to access Provider Flex via email. Additionally, once in your implementation phase, the current online provider enrollment (OPE) tool will automatically redirect you to Provider Flex to complete your enrollment, revalidation, or update.

See [Web Announcement 3457](#) for more information about the new tool, Provider Flex.

Please stay tuned for further information and direct communication as your implementation phase approaches.
