## **Attention Providers Billing for Physician-Administered Drugs (PAD): System Updates**

The Division of Health Care Financing and Policy (DHCFP) has implemented system updates related to the billing of physician-administered drugs (PAD) on professional medical claims.

Due to a delay in the First Databank (FDB) file upload, some providers may experience claim denials with the error message "HCPCS/NDC Combination Not Valid", particularly when billing unclassified Healthcare Common Procedure Coding System (HCPCS) codes.

DHCFP is actively working on long-term solutions to prevent this issue in the future. We appreciate your patience as we continue to improve system functionality.
