## **Attention Provider Type 20 (Physician, M.D., Osteopath, D.O.): Update on Claims for Procedure Code V2750 That Denied in Error**

Update to [Web Announcement 3480](#): Claims submitted by provider type 20 (Physician, M.D., Osteopath, D.O.) for procedure code V2750 (Anti-reflective coating, per lens) have been denying with error code 3001 (Prior authorization not found) even though initial prior authorization (PA) is no longer required for this service. Effective September 1, 2025, code V2750 was updated in the Medicaid Management Information System (MMIS), and claims will no longer deny when submitted without initial PA.

Claims with dates of service on or after November 11, 2024, for procedure code V2750 that denied with error code 3001 will be reprocessed automatically. Results of the reprocessed claims will appear on a future remittance advice.

When claims are reprocessed, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and other claim denials may be received. Providers have the right to appeal denied claims, including those denied upon reprocessing. Please refer to [Medicaid Services Manual Chapter 100](#) and the [Billing Manual](#) for information concerning the claim appeal process and time frames.
