## Nevada Medicaid Web Announcement 3798

### **Attention Provider Types 17 (Special Clinics) Specialties 181 (Federally Qualified Health Clinics) and 198 (HIV), and 74 (Nurse Midwife):**

## **Syphilis Testing Codes Open for Billing Beginning January 1, 2026**

During the 83rd Nevada Legislative Session (2025), Assembly Bill (AB) 360 passed which allows providers to be reimbursed for rapid or point-of-care testing when testing pregnant individuals for syphilis during or shortly after pregnancy.

In accordance with AB 360 and [NRS 442.010](#), the codes below have been opened for billing by the applicable provider types (PT), effective for claims with dates of service on or after January 1, 2026. Prior authorization (PA) is not required.

- 86592 (Syphilis Test Non-Treponemal Qualitative) is open for:
  - 17 (Special Clinics) specialty 181 (Federally Qualified Health Center [FQHC])\*
  - 17 (Special Clinics) specialty 198 (HIV)
  - 74 (Nurse Midwife)
- 86780 (Treponema Pallidum) is open for:
  - 17 (Special Clinics) specialty 181 (FQHC)\*

\*For PT 17 specialty 181, these codes can only be shadow billed.
