

**March 2, 2026**

**Nevada Medicaid Web Announcement 3852**

## **New Specialties to be Created Under Provider Type 87 (Crisis Services) for Mobile Crisis Team and Intensive Crisis Stabilization Services**

Nevada Medicaid will be creating new specialties under provider type 87 (Crisis Services): specialty 033 (Mobile Crisis Team [MCT]) and specialty 034 (Intensive Crisis Stabilization Services [ICSS]). The objective of specialty 033 is to provide a mobile crisis response team who can respond to individuals in crisis and offer “someone to come” in the crisis care continuum. The objective of specialty 034 is to address urgent conditions that require immediate attention and stabilize individuals through short-term care.

These specialties will be available for enrollment beginning March 16, 2026.

Once PT 87 specialties 033 and 034 are available in the [Provider Flex](#) tool, eligible providers may backdate their enrollment effective date to October 1, 2025. Enrollment requirements will be listed in the [Provider Enrollment Information Booklet](#) and enrollment checklists will be available on the [Enrollment Checklists](#) page.

Once a provider is enrolled, they may begin to submit claims under their new PT 87 specialty following the prior authorization and billing requirements. These requirements will be available in the new billing guide, which will be posted on the [Billing Information](#) page.

[Medicaid Services Manual Chapter 4400](#) – Crisis Services has been created with the policy for crisis services under PT 87.
