Nevada Medicaid Web Announcement 3858

Participate in the All-Payer Claims Database Advisory Committee

The Nevada Health Authority (NVHA) is accepting applications for participation in the All-Payer Claims Database (APCD) Advisory Committee. The APCD, with the guidance of the Advisory Committee, is a valuable resource for Nevadans and others seeking to understand how healthcare data is collected and used to benefit all Nevadans. The NVHA is currently looking for providers, members who represent health facilities, members who represent private insurers, and members who represent a nonprofit organization that advocates for consumers of health care services. Those who can meet quarterly and would like to better understand the volume, cost, and quality of healthcare services delivered in Nevada are encouraged to apply. By participating in the APCD Advisory Committee, you'll increase healthcare transparency, support better health policies, and help evaluate healthcare programs. APCD members will be appointed by the Director of the NVHA.

If you are interested in the opportunity of serving on this important advisory committee, please fill out our application form [here](#). Additionally, a follow up email must be sent to communityandprovider@nvha.nv.gov with your resume attached.
