Nevada Medicaid Web Announcement 3987

Update on Claims Billed With Modifier 26 or TC

Claims submitted by physicians or outpatient hospitals with modifier 26 (Professional Component) or TC (Technical Component) have been paying in error when a corresponding global claim has already been paid.

Effective for claims processed on or after August 17, 2026, claims with the above criteria will correctly deny with error code 6134 (Unbundling of Technical/Professional Modifiers) when a paid global claim exists in claim history.

Providers are reminded that modifiers TC and 26 cannot be billed with global procedure codes for the same recipient and same date of service. Global services include both the professional and technical components of a service. Please refer to [Web Announcement 3360](#).
