Nevada Medicaid Web Announcement 4013

Annual Rate Adjustment for Provider Type 17 (Special Clinics) Specialty 180 (Rural Health Clinics)

Federally mandated annual Medicare Economic Index (MEI) rate adjustments for Federal Fiscal Year 2027 have been entered in the Medicaid Management Information System (MMIS) for provider type 17 (Special Clinics), specialty 180 (Rural Health Clinics). The rate adjustments are effective on claims for encounter code T1015 (Clinic visit/encounter, all-inclusive) with dates of service on or after October 1, 2026. No claims will be reprocessed automatically as this is a go-forward change.

Effective January 1, 2026, Managed Care Organizations (MCOs) have up to 60-days after receiving updated rate files to implement rate changes on a go-forward basis, unless otherwise specified by the State. MCOs must implement rates for FQHCs, CAHs, RHCs, and other cost-report based rates effective when the State prescribes them, including retroactively, as applicable. This provision does not limit the MCOs' ability to apply cost-containment or avoidance activities that reduce costs or prevent fraud, waste, or abuse.
