Nevada Medicaid Web Announcement 4054

New Specialty 318 (Assertive Community Treatment) To Be Created Under Provider Type 14 (Behavioral Health Outpatient Treatment)

Nevada Medicaid is creating a new specialty under provider type (PT) 14 (Behavioral Health Outpatient Treatment): Assertive Community Treatment (ACT) (specialty 318). This specialty will assist individuals with serious mental illness (SMI) and/or SMI with co-occurring disorders.

Specialty 318 is currently in development, and a future web announcement will be posted when it is available for enrollment through the Provider Flex tool. Providers must enroll with a unique National Provider Identifier (NPI). Please refer to the Provider Enrollment Information Booklet for general enrollment requirements and information, and an enrollment checklist will be available on the Enrollment Checklists page.

The PT 14 Billing Guide will also be updated to include coverage for specialty 318 and posted on the Billing Information page. Please refer to this billing guide for information regarding billable codes, billing instructions, and prior authorization requirements.

Medicaid Services Manual Chapter 400 – Mental Health Services was updated October 1, 2025, with the policy applicable to ACT.
