Web Announcement 45

The Payment Error Rate Measurement (PERM) Project:

The Nevada Division of Health Care Financing and Policy (DHCFP) is participating in a national study called the Payment Error Rate Measurement (PERM) Project sponsored by the Centers for Medicare and Medicaid Services (CMS).

DHCFP will draw 150 Medicaid and 150 Checkup random claims from the universe of paid Medicaid and Checkup claims, review each claim in detail to determine whether it was paid accurately and calculate an error rate based on the sample.

This is to inform all Nevada Medicaid Healthcare Providers that you may be requested to provide documentation relative to this study.
