Announcement 481

## **EDI Announcement: Dual Use for 4010/5010 Formats Ends June 30, 2012**

In December 2011, the State of Nevada Department of Health and Human Services, Division of Health Care Financing and Policy (DHCFP) announced that, effective January 1, 2012, Nevada would accept both Accredited Standards Committee (ASC) X12 Version 5010 **and** Version 4010 transactions. Nevada announced that it would support Dual Use of these transactions at a minimum for the duration of the Discretion Period announced by the Centers for Medicare & Medicaid Services (CMS), which began January 1, 2012, and continued through March 31, 2012.

DHCFP announced that effective April 1, 2012, it would continue to accept X12 transactions in both the 4010 and 5010 versions until June 30, 2012. Nevada Medicaid and Nevada Check Up providers and trading partners (aka service centers) who wish to continue to conduct business with Nevada using electronic transactions must transition to Version 5010 before July 1, 2012.

**Effective July 1, 2012, only the Version 5010 format will be accepted.**

Nevada Medicaid and Nevada Check Up providers and trading partners can still test for ASC X12 5010 transactions. Testing is supported by EDIFICS Inc. through the EDIFICS Ramp Management Testing Solution. If you have not already received an invitation to test through Ramp Management, you may contact the help desk via email at [nvmmis.edirampsupport@hp.com](mailto:nvmmis.edirampsupport@hp.com) to request access to the tool and instructions.
