

Web Announcement 54

2005 Rates Now in Effect for CPT and HCPCS Codes:

The Medicaid Management Information System (MMIS) has been updated to accept the 2005 rates for Current Procedural Terminology (CPT) codes and Healthcare Common Procedure Coding System (HCPCS) codes.

Effective immediately, please bill using the 2005 codes. Claims with dates of service in 2005 that denied for invalid 2005 CPT and HCPCS codes will be recycled. Several codes created in 2004 have also been added with appropriate rates; affected claims with dates of service after 04/01/04 will be adjusted.

Your Remittance Advice (RA) will report the adjudication of the recycles and adjustments.
