

# Web Announcement 58

## **Attention Provider Type 31 Regarding Immunization Administration:**

Provider Type 31 (Healthy Kids Screening) providers who submitted Nevada Medicaid and Nevada Check Up claims with Current Procedural Terminology (CPT) codes 90471 and 90472 (immunization administration and each additional vaccine, respectively) saw a decrease in rates for these codes on recent Remittance Advices (RA). The rate decrease to \$5.20 was made in error. Affected claims will be adjusted back to the correct rate of \$9.45.

Your RA will report the adjustment. No action is required on your part. No rate changes are scheduled at this time for these codes for Provider Type 31.
