Announcement 674

Subject Line of User Account-Related Emails Updated

To improve security for users within the electronic verification and online prior authorization systems, the subject line of all user account and security-related emails has been modified to be generic so their content will not be advertised.

The table below lists the current and updated subject lines of the emails that may be sent to users, and from which webpage the emails are generated.

Current Email Subject Line	Updated Email Subject Line	Webpage
Password Update Notification	Nevada Web Portal Notification	Generated from: Change Password page Accessed from: <ul style="list-style-type: none">• Maintain Profile page (all Portals)
