Web Announcement 75

Rates for the 2006 HCPCS and CPT Codes:

The rates for the 2006 Healthcare Common Procedure Coding System (HCPCS) codes and 2006 Current Procedural Terminology (CPT) codes are currently being entered into the Medicaid Management Information System (MMIS).

When the updates are complete, providers will be notified and all claims denied for invalid 2006 HCPCS and CPT rates will be reprocessed. Your Remittance Advice (RA) will report the adjudication of these claims. No action is required on the part of providers.
