Web Announcement 77

2006 CPT Codes and Rates Updated:

The 2006 Current Procedural Terminology (CPT) codes have been updated in the Medicaid Management Information System (MMIS). Rates have also been added for covered services. Claims with dates of service in 2006 that denied for invalid 2006 CPT codes are being reprocessed; please do not resubmit these previously denied claims. Your Remittance Advice (RA) will report the adjudication of these claims. Effective immediately, please bill using the 2006 codes.
