# Web Announcement 97

## Rate Increases for Provider Type 61 Implemented:

Rate increases for Provider Type 61 (Behavioral Health Treatment Home, formerly Mental Health Rehabilitative Treatment Services/Residential) for Levels of Care 1 through 3 and Therapeutic Foster Care have been implemented with effective dates of 07/01/05 through 12/31/05. Rate increases are 14% for Level 1; 6% for Level 2; 3% for Level 3; and 8% for Therapeutic Foster Care.

Claims previously adjudicated for this time period have been adjusted. The Remittance Advice (RA) dated 08/11/06 reports the results of any adjustments.

No action is required on the part of providers if previous claims were billed at the increased rate(s). Providers should submit adjusted claims if initial claims were billed at the prior lower rate(s).
