Web Announcement 145

Claims Denied for Edit Code 887

If a Nevada Medicaid/Nevada Check Up claim is submitted with a National Provider Identifier/Atypical Provider Identifier (NPI/API), the servicing and billing provider numbers must be in the same format.

If NPI/API is used on the claim for servicing provider ID, you must include the NPI/API for billing provider ID. This does not preclude you from also including your Medicaid provider number on claims submitted with NPI.
