Web Announcement 1634

Attention Behavioral Health Providers: Do Not Bill with Provider Specialty 000 as a Servicing Provider

Attention provider types (PT) 14 (Behavioral Health Outpatient Treatment), 17 (Special Clinics) specialty 215 (Substance Abuse Agency Model (SAAM)) and 82 (Behavioral Health Rehabilitative Treatment):

When submitting a claim, the "Billing Provider" National Provider Identifier (NPI) field must identify the entity/group or individual that is billing for the services. The "Rendering Provider" NPI field must identify the individual who personally provided the service. It is improper to enter the NPI of an entity/group as the "Rendering Provider." It is also improper to enter the NPI of any individual who did not provide the service. Do not use the NPI of a supervisor or co-worker if they did not perform the service. Entering someone else's NPI as the "Rendering Provider" is improper and may be considered fraudulent.

If you have any questions, please contact the DHCFP at behavioralhealth@dhcp.nv.gov.
