Attention Inpatient Hospitals and Facilities: Enter Value Codes and Number of Days on Claims

Hospitals and facilities are reminded to indicate value codes and the appropriate number of days for each value code on their claims. If only covered days are being billed, enter a value code of 80 on the claim with the number of covered days. If both covered and non-covered days are being billed, enter value code 80 with the number of covered days and enter value code 81 with the number of non-covered days.

Please review the [Institutional Health Care Claim: Fee-for-Service (837I) Electronic Data Interchange (EDI) Companion Guide](#) and the [Electronic Verification System (EVS) User Manual Chapter 3 Claims](#) for billing instructions.
