Web Announcement 2809

Some Claims Adjudicated with Error Code 6511 Have Been Reprocessed

Some claims submitted with or without add-on codes with dates of service on or after January 1, 2022, may have paid incorrectly or denied with error code 6511 (Add-on code billed without primary). The impacted claims with dates of service on or after January 1, 2022, that processed on or before March 22, 2022, have been reprocessed automatically.

The claim reprocessing effort also included some procedure codes that paid if a paid history claim was not found on the same date of service. These claims may have had dates of service of February 1, 2019, or October 1, 2019, and were processed on or before March 22, 2022.

Results of any impacted reprocessed claims appear on remittance advices dated June 17, 2022.

When claims are reprocessed, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and other claim denials may be received. Providers have the right to appeal denied claims, including those denied upon reprocessing. Please refer to [Medicaid Services Manual Chapter 100](#) and the [Billing Manual](#) for information concerning the claim appeal process and time frames.
